

As a flight attendant who has been flying for 33 years, I am adamantly against the use of passenger cell phones inflight. In the past 10 years I have been subjected to more verbal abuse and intolerance from passengers than in the previous 23 years. Would you like to be seated next to someone who is carrying on a conversation right next to your shoulder? We don't need more opportunities for passengers to become angry with each other as flight attendants will be caught in the middle of all of this. Thank-you.
